Scanlon-Pearce.

A railroad marriage in more senses than is usual will be that celebrated today when Miss Elizabeth Scanlon becomes Mrs. Arthur Pearce. Not only is the groom a railroad man, but the bride has been until two weeks ago, in railroad service and the groom's father and the bride's father are both in railroad service. All are connected with the Hocking Valley. Not only that, but it was railroad work that brought the two together and business association grew into friendship and friendship ripened into love.

The wedding will be a very quiet one. The ceremony will be performed in the parsonage of the Cathedral here after which the couple will repair to Lancaster, the home of bride's parents, where a dinner and reception will be given the young couple. Their future home will be in Columbus.

Arthur Pearce, after graduating from Central High school, entered the railroad service as a stenographer and worked his way upward steadily until he became chief clerk to the general superintendent. This position he held for several years. Only recently he was promoted to be assistant superintendent of car service. He has been in the service about nine years.

Miss Scanlon has been a stenographer in the office of the general office for about six years.

Her father, T. R. Scanlon, is inspector of bridges and buildings for the Hocking Valley, D. Pearce, father of the groom, is a telegraph operator in the general offices of the Hocking Valley. After the wedding festivities the young couple will take a trip to the far West.—State Journal.

INDICTMENTS AT NEW YORK

Grand Jury Finds Against Two Former Officials of Mutual.

BOTH ARE HELD FOR TRIAL

Forgery and Perjury Alleged Against Dr. W. G. Gillette and Forgery and the Filing of False Statements Against Robert A. Grannis — Both Furnish Bail.

New York, June 12.—Indictments for forgery and perjury against Dr. W. G. Gillette and for forgery and filing false statements against Robert A. Grannis, both former vice presidents of the Mutual Life Insurance company, were returned by the special grand jury which has been investigating insurance affairs for the past six weeks. The indictments were returned to Justice Scott, in the criminal branch of the supreme court, when the jury went before him for dismissal, having ended its labors.

Six indictments were found against Dr. Gillette, five for forgery in the third degree and one for perjury. Mr. Grannis was indicted for forgery and for making false statements to the insurance department, the latter being a misdemeanor.

Both defendants immediately surrendered themselves and were admitted to bail. Dr. Gillette in \$10,000 and Mr. Grannis in \$5,000, their cases being put over until the first Monday in September.

The forgery indictments against Dr. Gillette are based upon alleged false entries in the books of the company, and the perjury charge grows out of testimony before the grand jury. The forgery indictment against Grannis is based upon alleged false entries upon the annual report of the Mutual for 1904 to the insurance department. It is alleged that the sum of \$1,044,058, the net profits of the company for 1904, was not noted in that report but was concealed by Grannis. The misdemeanor charge of making false statements grows out of the filing of the alleged false report to the insurance department.

The first indictment against Gillette recites that while vice president of the Mutual on May 4, 1904, he caused to be made in the book of the company known as the blotter a false entry that \$1,500 had been paid to the firm of George McKibben & Son for advertising, when as a matter of fact neither that sum nor any other was paid to McKibben & Son. The second indictment charges that on the same date a fraudulent entry of \$20,601 for printing and stationery was made, when as a matter of fact only \$12,701 was paid. The third indictment charges that on May 11, 1904, the defendant made a false entry in the cash book indicating the payment of \$6,387 for advertising, when only \$2,876 had been spent for that purpose. The fourth indictment charges that on May 4, 1904, the defendant caused to be entered in the blotter a fraudulent entry that the sum of \$3,400 had been paid to C. E. Parsons for stationery and printing, when no sum had been so paid. The fifth indictment charges that on May 11, 1904, a fraudulent entry was made in the blotter that \$3,511 had been paid to George McKibben & Son, when no sum at all had been paid. All five of the indictments charge forgery in the third degree.

FATAL CLASH

Between Union and Nonunion Structural Iron Workers.

Pittsburg, Feb. 12.—One man was fatally shot and beaten into unconsciousness in a clash between union and nonunion structural iron workers in the Hazelwood section of this city. The affair was a culmination of the strike troubles of the structural iron workers that has lasted several months. The victim is Thomas Walsh, a union man. His assailants were Thomas Lyons, Carl Dunn, C. R. Lewis and Zach Caruthers, all nonunion men, who were brought from Cleveland by the American Bridge company.

Wellman's Balloon.

Paris, June 12.—The public test of the motors of Walter Wellman's balloon, with which he is about to depart on his expedition to the north pole, was eminently successful. The machines developed 100 horsepower instead of the contract power of 75. The envelope appliances and provisions also were exhibited and excited intense interest among aeronauts, military members, the members of the press and men of science representing most of the European countries. Mr. Wellman intends to start northward this week.

Packing House Fire.

Omaha, Neb., June 12.—A fire which started just before midnight damaged the plant of Armour & Company, the greatest plant in South Omaha, to the extent of \$100,000. The fire started in the oleomargarine department. Cornelius Denny, a member of Armour & Company's private fire department, was killed by falling timbers.

Accidentally Killed Wife.

Muskogee, I. T., June 12.—Dr. J. A. Copus, a dentist, who came here from Toledo, O., accidentally shot and killed his wife here while cleaning a revolver.

OPERATORS

Will Strive Desperately to Start Mines in Eastern Ohio.

Dillonville, O., June 12.—One hundred and forty of the striking miners at Bradley and Plum Run were served with notices of eviction by constables. The strikers have retained counsel and will fight eviction in the courts.

The failure of the Hanna Coal company to induce the strikers to return to work has aroused the officials to renewed vigor, and plans are now progressing to start the mines with non-union help. The officials claim that

the attack of Sunday night, when 50 shots were fired by strikers at the tipple house, intimidated the men who intended to work. Sheriff Vorhees was appealed to by the Hanna company for protection, the declaration being made that the lives of its officials and those who are willing to work will be in danger after the mines are put in operation, and that the property is in danger of destruction. Superintendent Hornickel and assistants say they have a number who will work, and in order to protect them from interference on the part of the strikers representatives of the company will accompany each workman. The Bradley mine has closed and the strike-breakers transferred to Plum Run, where little progress has been made.

A big demonstration was held by the strikers at Barton, and all declared allegiance to the organization. A Bohemian who attended the meeting tried to influence some of the men to return to work. He was roughly handled and thrown into a water trough. After he gained consciousness he was given 30 minutes to leave town.

Will Miners Desert?

Denver, June 12.—A letter was read in the convention of the Western Federation of Miners from coal miners of Ohio, offering to desert the United Mine Workers of America and enter the Western Federation in a body. The letter stated that at a mass meeting held May 27 at Dillonville, O., it was decided to ask the Western Federation to take them in. It was further stated that all the coal miners of Ohio and West Virginia were ready to make the change of allegiance. The proposition was submitted to a committee.

Doings of Operators.

Columbus, O., June 12.—At the conference here of stand-pat operators of Ohio, John H. Winder, president of the Sunday Creek Coal company, was made sole agent of the operators to deal with strikers. He will take charge of any further negotiations, and whatever settlement he may make will be consented to by the other operators.

DIED IN CHAIR.

Tucker Electrocuted For the Murder of Mabel Page.

Boston, June 12.—Charles L. Tucker was electrocuted in state prison at Charlestown for the murder of Mabel Page at Weston March 31, 1904. When Tucker arrived in front of the death chair he drew from his trousers pocket a brief statement, which he read. The statement was: "I hope that God will forgive me for all the wrongs I have ever done in my past life. I forgive everybody who has wronged me. I am at peace with my Maker. May God have mercy on my soul." Three applications of the current were made and at 12:19 Tucker was pronounced dead. Tucker left a letter in which he said: "I have nothing to confess. I am entirely innocent. I have been asked, if guilty, to confess, but to the people that asked me I have said: 'I have nothing to confess; do you want me to tell a lie?' I am sorry for my dear parents. My last words to you are that I am innocent, and they will be the last words that I will have on my lips when I die."

Ice Dealers Plead Guilty.

Toledo, O., June 12.—R. A. Beard and Compton Lemmon, officers of the Hygeia Ice company, pleaded guilty in common pleas court to a conspiracy in restraint of trade. Following the conviction of Miller, another ice dealer, last week, Beard and Lemmon decided to change their plea from not guilty to guilty. A number of indictments were found against other ice companies under the anti-trust law, and these cases will be tried at once. The price of ice has dropped 30 per cent within the past few days as a result of prosecutions against the trust.

Against Bridge Company.

Cincinnati, June 12.—The suits filed in almost every county of Ohio against the Brackett Bridge company, alleging violation of the anti-trust law and collusion with other bridge bidders, resulted in the filing of involuntary bankruptcy proceedings against the company by creditors in the United States district court here. The total liabilities are said to be more than \$100,000. Simultaneously with the bankruptcy proceedings, a deed of assignment was filed in the insolvency court by the company to Julius A. Beiser.

Ohio Commission at Jamestown.

Norfolk, Va., June 12.—The Ohio state commission to the Jamestown exposition visited exposition grounds and inspected the site which has been assigned for the Ohio state building. A conference with the exposition officials on the scope of the Ohio exhibit followed. In the party are John W. Bookwalter of Springfield, Ernest Root of Medina, John P. Given of Circleville, George W. Knight of Columbus and Clive C. Handy of Wauseon.

Given Life Sentence.

Cincinnati, O., June 12.—Charles Campbell, under indictment with two others for the murder of Henry Raisch, pleaded guilty to murder in the second degree and was given a life sentence. Daniel Dodson is already in the penitentiary, and the trial of the third, W. H. Jackson, is yet to come.

Taft at West Point.

West Point, N. Y., June 12.—The day was the most eventful one in the whole year of cadet life at West Point. It marked the graduation of the first class and the beginning of two months' leave of absence of the third class. General Horace Pover, president of the board of visitors, delivered the address to the graduates. Secretary Taft presented the diplomas, after making a brief address to the class, in which he said: "I congratulate you on entering the army at this time, when we are at peace with the world, and at a time when it is in such a promising condition. The army is promoted for war. You are not here for display, nor to do those things pleasing to the taste of sweethearts, but to honor and devote your lives to the protection of your country's flag. Do not think that you have completed your course. You are just entering on your military education."

TO REST UP AT OLD HOME

Governor Pattison Removed From Cincinnati to Milford.

APPEARS TO BE STILL WEAK

Mark Slater Threatens Suit to Recover the Office of State Printer. Ice Dealers at Toledo Plead Guilty. Ohio Commission at Jamestown. Va. News of the State.

Cincinnati, O., June 12.—Word from Milford, where Governor Pattison was removed Monday evening, is to the effect that the distinguished patient is resting quietly at his old home. The governor made the trip to Milford in a special traction car from Christ hospital, where he was brought from Columbus on April 5. Preparations were made secretly in order to avoid public attention, which might add to the excitement of the patient. Dr. Oliver accompanied the governor to his home, and the greatest care was taken to make the trip as easy as possible. The patient appeared to be still weak and was apparently a good deal tired from the trip, but it is hoped that the surroundings of his home will have a beneficial effect. An ambulance carried him from the hospital to the car and a second one met him at Milford and took him to his home, which is some little distance away.

Slater Surrenders Office.

Columbus, O., June 12.—Mark Slater, who previously refused to turn over the office of state supervisor of public printing to J. W. Johnson of Waverly, Governor Pattison's appointee, capitulated Monday after the adjutant general put a new lock on the door and gave the key to Mr. Johnson. Slater "held the fort" awhile, then left the office. His deputy, D. A. Agler, took his personal effects and left the office. Mr. Johnson appointed E. S. Nichols of Waynesburg, editor of the Auglaize County Democrat, to succeed Agler. Slater said he would bring suit to hold the office, and that the papers were in course of preparation by his attorneys. Auditor of State Gulbert said he would honor vouchers signed by Johnson.

JETT'S STORY

Said to Implicate Breathtight Notables in Several Killings.

Cynthiana, Ky., June 13.—It is understood that Curtis Jett in his confession says that Judge James Hargis, Elbert Hargis and Ed Callahan were in the shed from which Cox was shot and killed by assassins concealed therein. He does not say who fired the shot. Jett, it is said, also con-

CURTIS JETT.

fessed to the killing of Marcum and Cockrell. He says that Moses Felner, who said that Judge James Hargis, Ed Callahan, B. F. French and Elbert Hargis were responsible for the murder of Marcum, told the truth in every detail.

PRESIDENT COREY

May Not Contest Divorce Proceedings Instituted by His Wife.

Reno, Nev., June 13.—Mrs. William Ellis Corey, wife of the president of the United States Steel corporation, filed a petition in court at this place for an absolute divorce. The petition of Mrs. Corey is brief, reciting that she was married to Corey on Dec. 15, 1883, and that he abandoned her about May 1, 1905. She asks for a decree upon the ground of desertion and also requests that the custody of their minor son be given to her. The petitioner has obtained three attorneys of Reno to prosecute her case, and Corey will be represented by Pittsburg and Nevada counsel. Sardis Summerfield, representing Corey, stated that he did not know whether his client would oppose the petition or not. It is currently stated that negotiations are in progress which will result in Corey giving his consent to the divorce and his settlement upon his wife of an independent fortune.

Shop Men Strike.

Ashtabula, O., June 12.—About 200 men employed in the repair shops of the Lake Shore and Michigan Southern railroad struck for an increase of 10 cents per day. The shops are practically closed on account of the strike.

Blew Out His Brains.

Coahonton, O., June 12.—Wesley McCleary, 57, a meat dealer of this city, blew out his brains with a revolver. A few months ago he fell and was crippled for life. This fact is supposed to have prompted him to the deed.

Magoon's Trip.

Panama, June 12.—Governor Magoon, in his capacity of American minister to Panama, returned on board the United States cruiser Columbia from a trip to Boca de Toro. He expressed himself as surprised at the progress that has been made in clearing up the city by the Panama government. A sea wall has been constructed and the city will be filled four feet above its present level.

OFFICIAL REPORT Of the Ohio Agricultural Dep't to June 1.

The continued drouth during the greater part of the month of May has caused a decline in wheat prospects compared with the report issued by this Department May 1. On that date the estimated condition of the plant was 103 per cent., while the report this month shows its present condition to be 95 per cent, of an average. The decline in prospect is not confined to any one section of the state, but is very general, every county showing a lower percentage than was reported last month. Smut is reported by many correspondents and there is also some complaint of its heading out short. There are but few reports of damage by Hessian fly. The present prospect is most encouraging, and with steady progression until harvest the crop should be well above an average per acre, and a fair total product for the state.

Oats generally were sown late and the long dry spell following the seeding has not been favorable to its growth, hence the report this month does not show a very high average condition, being reported at 73 per cent of an average.

Corn growth over the state is very uneven and irregular. Many fields are yet to be planted, but with favorable weather it is hoped a full average acreage will be put in. The dry weather has been unfavorable for proper germination, and some fields have been replanted. In some sections of the state cut worms are causing damage.

The drouth has seriously affected pastures and meadows, but recent rains have been very beneficial.

Hogs being fed for summer markets show a very low percentage, being reported at 48 per cent. Their condition, however, is excellent.

Frosts have seriously affected fruit prospects, and the yield of small fruits will be further reduced by the continued dry weather.

Correct Fitting.

It does not matter how fine the quality is if the fitting is not correct, it is positively injurious to the eyes.

Be sure to get both. Best quality and correct fitting, if you want comfort from eye glasses or spectacles.

Examination free. Their long and successful experience entitles them to the full confidence of the afflicted.

DROPS

TRADE MARK

CURES RHEUMATISM LUMBAGO, SCIATICA NEURALGIA and KIDNEY TROUBLE

"DROPS" taken internally, rid the blood of the poisonous matter and acids which are the direct causes of these diseases. Applied externally it affords almost instant relief from pain, while a permanent cure is being effected by purifying the blood, dissolving the uric acid, and removing it from the system.

DR. S. D. BLAND

Of Brown, Ga., writes: "I had been a sufferer for a number of years with lumbago and sciatica in my arms and legs, and tried all the remedies that I could find, but with no success. I then tried 'DROPS' and after using a number of the bottles, I found relief. I feel that I owe my recovery to 'DROPS'. I shall prescribe it in my practice for rheumatism and kidney trouble."
